Address

Project information (general)

Project title

Country/region

Starting date of project

Estimated duration of project

Total project budget (in CHF)

For the whole duration of the project

Amount requested (in CHF)

From the Foundation for the Third Millennium with this application

Confirmed matching funds (in CHF)

Promised/received from other private organizations

Description, need, goals and methods

What is your organization's experience/qualification to carry out this project, description of local situation/need/urgency, what are the overall objectives/goals and what are the chosen approaches/methods to achieve them?

Short summary of the project

Please upload a separate, short (max. 2 pages) description of the project at the end of the form (enclosures).

What similar projects have been realized?

By you and/or the local partner organization

Current Situation of the beneficiaries and the local environment**What are the project's main goals/objectives?****Explain/expand on the methods and measures selected to reach the project's goals****Milestones and risks**

Please explain in detail how you plan to manage the project, the results and the potential risks.

What milestones will you use to define and manage the project's progress?

Please answer the question in key words (upload a detailed schedule/timeline at the end of the form (enclosures) - if available). You can download [further information](#) on the subject of milestones and specific examples.

What are the risks that could endanger the success of the project? How do you plan to monitor and minimize them?

Please answer the question in key words.

Environment

How does the environment benefit from the project?

Which environmental aspects are important for the project and how will you take them into account?**How does the project promote environmental awareness and holistic thinking?**

How will you promote awareness of the connection between one's own behavior and the environment and the interplay between a healthy ecosphere, economic self-reliance, and social fairness, and identify solutions?

How does the project address the root causes and take preventive measures?

How does the project address the root causes of the problems? What preventive measures and/or action are/is planned?

How does the project directly, practically and measurably improve the environment?**Measurable environmental goals**

Size of revitalized area/regenerated soil/water..., replanted forest/trees, promoted biodiversity, etc.

Long-term, comprehensive sustainability and local impact

How is long-term sustainability achieved? What changes for how many beneficiaries? How does the project become independent in the long term (local ownership)?

What are the long-term social benefits for society and beneficiaries?**Measurable social goals**

How many local beneficiaries are actively involved; how many are reached through advocacy on various social issues?

What are the long-term economic benefits for society and beneficiaries?

Measurable economic goals

Number of new/additional and environmentally sustainable jobs and businesses (multiplication possible?), market access, increased income, etc.

Who are the participants/beneficiaries of the project? How many people will you reach?

Sustainable impact after the completion of the project

How do you ensure financial independence and long-term continuity of results after completion (local ownership)?

Which other organizations work in the same area/region? Which ones do you work with?

Financials

In addition to the overall budget amount, please list the 3 most important budget items and upload the detailed budget under «enclosures». Overall budget refers to all sub-projects (do not just submit the part of the budget for which funds are requested from the Foundation for the Third Millennium).

Total budget in CHF

Three most important budget items

Status of additional applications for financial support with other organizations

How much project-specific funding from other organizations(not government funding or general donations) has been solicited, approved, or rejected?

What contributions (financial or other) will be made by the applicants and/or beneficiaries?

Who is the independent auditor of your organization (including contact information)?

Enclosures, additional information and remarks

Detailed budget

Brief project documentation and other enclosures

Accreditations/certifications of your organization

Comments on the agro-ecological criteria

If your project includes agro-ecological activities: please upload the details (see our criteria) here

Pre-Check

This pre-check shows if your project meets the general requirements of the foundation. Green bar: click «continue» to start with the application form. Yellow bar: please contact us. Red bar: the project doesn't meet the general requirements of the Foundation for the Third Millennium.

1) Does your project include ecological, economic and social aspects?

3) Does your project improve the environment in a practical, direct and measurable way?

5) Do you plan to ask other organizations for matching funds?

2) In which country are you based?

4) Will the requested funds mostly cover infrastructure, workshops/events/exhibitions and travel costs?

6) Are you submitting for the whole duration of the project?

We prefer and generally support applications covering 3 years.
