May 2 – October 30, 2021

**Niklaus Brantschen SJ, lic. phil & lic. theol., Jesuit and authorized zen master:**

For the second time in 20 years, we had the pleasure of hosting *Schritte durch die Zeit* in the Lassalle-Haus park. During this time I was able to notice that the interest in the well-being of the old, always young Mother Earth is growing.

More often than then, I saw people standing in front of the panels – contemplative and thoughtful.

I also met many groups, often led by Hansruedi Zulliger. Whatever the weather was - the care for our beautiful planet cannot wait until the sun shines. The time is ripe!
